**As rescanning documents *will not* correct images,  
please do not report the images to the  
Image Problem Mailbox.**

#### **ABSTRACT OF THE INVENTION**

The present invention provides means for the production of desired end-products of *in vitro* and/or *in vivo* bioconversion of biomass-based feed stock substrates, including but not limited to such materials as starch and cellulose. In particularly preferred embodiments, the methods of the present invention do not require gelatinization and/or liquefaction of the substrate.
